PROJECTS

- | | |
|--|----------|
| U.S. Housing Prices During the Great Recession | Dec 2020 |
| <ul style="list-style-type: none">Created a log-log model of residential property sales to estimate the impact of a recession on the elasticity of housing prices with changes in the lot area | |
| The Role of Education and Secularism on Political Preferences | Nov 2020 |
| <ul style="list-style-type: none">Specified a linear regression model to examine how education and secularism affect voters' political preferences in the context of the 1980 U.S. presidential election | |
| Cardiovascular Disease Classification | Mar 2020 |
| <ul style="list-style-type: none">Performed regularized logistic regression to classify cardiovascular disease, achieving a model accuracy of 70% | |
| Song Genre Prediction | Mar 2020 |
| <ul style="list-style-type: none">Implemented tree-based methods on Spotify data to predict the genre of a song based on audio features | |
| Text Analysis of Bruno Mars' Music | Jan 2020 |
| <ul style="list-style-type: none">Utilized word frequencies and sentiment analysis to compare & contrast Bruno Mars' three studio albums | |

WORK HISTORY

- | | |
|---|----------------------|
| User Experience Coordinator | Sept 2020 – Present |
| Emory Office of Advancement and Alumni Engagement | Remote |
| <ul style="list-style-type: none">Resolved a 9-month backlog of alumni data update requests by writing a Python script that automatically matches the requests with the alumni's unique identification numbers in the master dataOptimized the monthly process of finding discrepancies in active users between two systems that are used for alumni relations, reducing the time it takes to finish the task by 80% through Python (from 120 minutes down to 25 minutes)Conducted weekly audits of alumni events on the back-end of the alumni website to ensure that they were properly createdProvided technical assistance by email to 200+ alumni who faced difficulty in utilizing alumni resources online | |
| Research Analyst | Sept 2019 – Dec 2019 |
| Emory Division of Pediatric Infectious Diseases | Atlanta, GA |
| <ul style="list-style-type: none">Analyzed virus-cell fusions in Icy and ImageJ at the Melikian Lab to identify colocalizations, viral entry, and particles that culminate in infection | |
| Safety and Security Intern | May 2019 – Aug 2019 |
| Atlanta Department of Watershed Management | Atlanta, GA |
| <ul style="list-style-type: none">Maintained the safety of spectators and participants of the 2019 Peachtree Road Race by surveying water meters and manhole covers along the route for evidence of tampering prior to the eventCommunicated proper protocols of legally restoring service with Atlanta residents who are under investigation for illegal water consumptionResearched properties flagged for water theft to determine discrepancies between tenant occupancy, billing information, and other relevant information | |
| Research Assistant | Sept 2018 – Apr 2019 |
| Emory Clinical Cardiovascular Research Institute | Atlanta, GA |
| <ul style="list-style-type: none">Collaborated with a team of researchers to manage the database of 7000+ patients who undergo cardiac catheterization at Emory University HospitalEvaluated diagnostic reports on patients' cardiovascular health to gather relevant findings for research in the genetic basis of cardiovascular disease | |

EDUCATION

BA, Mathematics and Economics	Emory University, Atlanta, GA, Fall 2017 – Summer 2021
